DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Group I, claims 1-40, drawn to processing a data packet based on a priority of the packet, classified in class 370, subclass 395.42.
- II. Group II, claims 41-54, drawn to converting the data packet from a format to another format for adapting with the system, classified in class 370, subclass 465.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification. In addition, the search required for Group I is not required for Group II. Therefore, restriction for examination purposes as indicated is proper.
